Backend: Node.js, NestJS, Express.js, Laravel, REST APIs, GraphQL, JWT Authentication, Microservices Architecture, System Design, Distributed Systems, Performance Optimization, Scalability

Databases: MongoDB, MySQL, PostgreSQL, Redis

DevOps & Cloud: AWS, Docker, Nginx, PM2, GitHub Actions (CI/CD), Vercel

Integrations: WhatsApp Business API, Stripe, PhonePe, Jotform

Tools: Git, GitHub, Jira, Trello

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer

Apr 2022 – Present

Alea IT Solutions Pvt. Ltd., Jaipur

Delivered 20+ full-stack projects across SaaS, automation, and marketing domains.

Hotel CRM & Automation Platform

SaaS-based CRM for customer engagement, automation, surveys, and subscription billing.

- Built a scalable CRM platform used by **5K-6K daily active users**, improving communication efficiency by 35%.
- Integrated WhatsApp Business API, increasing **campaign engagement by 2x**.
- Designed a QR-based survey system, achieving a 60%+ response rate.
- Implemented Stripe subscription billing, reducing manual effort by 80%.
- Developed backend services handling 10K+ daily requests.
- Introduced AI-assisted onboarding, improving efficiency by 25%.

Tech Stack: Next.js, NestJS, Node.js, WhatsApp API, Stripe, Jotform, PostgreSQL/MongoDB, Docker, Nginx, PM2

Affiliate Marketing & Workflow Builder

Workflow builder, survey engine, landing page creation, and lead routing for performance marketing use cases.

- Built a workflow automation system supporting **1,000+ active flows**.
- Increased **lead conversion by 35%** through a dynamic survey engine.
- Developed a self-serve landing page builder, reducing developer dependency by 70%.
- Improved system performance by 40-50% using Redis caching.
- Enhanced revenue efficiency by 25% through real-time lead routing.

Tech Stack: React.js, Redux, React Flow, GrapesJS, Laravel, Redis, REST APIs, Docker

Multi-Vendor E-Commerce Platform

Role-based e-commerce system for admin, vendor, and customer workflows, including catalog, orders, payments, and reporting.

- Developed a multi-vendor platform with secure authentication and RBAC for Admin, Vendor, and Customer roles.
- Built 50+ NestJS REST endpoints for product, cart, order, payment, and vendor workflows on PostgreSQL.
- Implemented product search with filtering, sorting, and pagination for **10,000+ product records**.
- Integrated Stripe Payments and webhooks for checkout, refunds, and payment verification with 99% transaction tracking accuracy.
- Created a vendor dashboard to manage products, inventory, pricing, and orders, supporting 500+ listings per vendor account.
- Reduced average API response time from **900ms to 150ms** using Redis caching, and processed 200+ daily background jobs with BullMQ.
- Containerized the full stack with Docker Compose and supported zero-downtime deployments through Nginx and CI/CD.

Tech Stack: Next.js, NestJS, PostgreSQL, Redis, BullMQ, Stripe, Docker Compose, Nginx, GitHub Actions

LEADERSHIP & OWNERSHIP

- Led teams of 4-8 developers across active product deliveries.
- Conducted code reviews and mentored developers across the team.
- Improved team productivity by 20% through planning and execution support.

DEPLOYMENT EXPERIENCE

- Managed production deployments for applications serving thousands of users.
- Reduced deployment time by 60% by setting up GitHub Actions CI/CD pipelines.
- Maintained 99.9% system uptime across production environments.
